Hiring Team
Koncept Hive
[career@koncepthive.com](mailto:carrer@koncepthive.com)

Dear Hiring Team,

I am writing to apply for the full-time remote Web Development Intern position at Koncept Hive. As a motivated IT undergraduate currently pursuing a Higher Diploma in Information Technology at SLIIT City Uni, I am eager to join your team and contribute to real-world projects while further developing my skills in modern web development.

I bring strong hands-on experience that directly matches your requirements:

- Solid proficiency in HTML, CSS, JavaScript, React, Node.js, PHP, MySQL and MongoDB
- Full-stack development experience with the MERN stack and PHP/MySQL
- Comfortable with at least one frontend framework/library (React) and backend solutions (Node.js/Express, PHP)
- Responsive web design and modern UI standards using Bootstrap and custom CSS
- Proficient in Git/GitHub for version control
- Experienced in Figma for UI/UX design, wireframing and prototyping
- Familiar with REST APIs and Agile practices

My recent projects include a full-stack MERN agriculture web app (Crop Master) with authentication and responsive UI, a bilingual e-commerce platform (AgreePath) built with PHP/MySQL, and a real-client bakery management system (GoldenTreat). These have strengthened my ability to deliver clean, user-focused code in collaborative settings.

I am immediately available for full-time remote work, highly self-motivated, and excited to learn from and contribute to Koncept Hive's innovative projects.

Thank you for considering my application. I have attached my CV and would welcome the opportunity to discuss how I can support your team. I am reachable at +94 77 605 9591 or ee.binuth@gmail.com.

Sincerely,
Binuth Nenuka Jayamaha
